AESTHETICS & LIFESTYLE

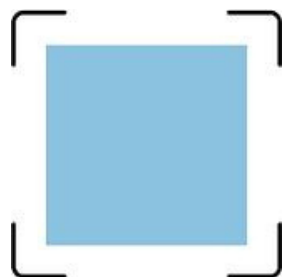

High-performance cleansers and exfoliants to purify the skin and remove make-up.

Your skin's surface is the part of your body which is permanently in contact with the environment. Aggressors such as air particles may accumulate on your skin throughout the day. Cleansing and purifying your skin is a recommended daily step to get rid of impurities and their harmful effects in the long term. Removing make-up and purifying the skin daily is key to a healthy skin. Dermaceutic's Purify range offers high-performance cleansers and exfoliants to effectively cleanse your skin everyday without drying it out, thanks to powerful ingredients such as glycolic acid, bentonite, salicylic acid and zinc. By acting on the superficial layers of the skin, impurities, excess of sebum and particles are gently removed, to maintain your skin in a healthier state. The principal ingredients found in the Dermaceutic "PURIFY" range are Xylitol which promotes and controls water flow and improves the appearance of skin micro relief; Zinc, recognized for its antiseptic properties; Microbiota regulator, that provides a variety of nutrients to reduce skin redness, imperfections and inflammation by supporting skin microbiota; and Niacinamide, that helps to reduce the appearance of acne-prone skin.

PURIFY

ADVANCED CLEANSER

ALL-IN-ONE CLEANSING FOAM

150ml

R645

Description

Advanced Cleanser effectively removes make-up and excess sebum. For daily cleansing, morning and evening. All skin types.

Vegan, Silicone free

Ingredients

Xylitol

Anti-dehydration agent which maximizes water circulation, to improve scaling and the appearance of skin micro relief.

Zinc PCA

Anti-seborrheic active associated with the penetration vector L-PCA (Pyrrolidone Carboxylic Acid) ensures the optimal bioavailability of zinc. Its ability to reduce sebum production and its anti-microbial properties make it suitable for oily skin.

Urea

One of the hygroscopic substances that constitutes the NMF (Natural Moisturizing Factors) located in the stratum corneum which removes scales from the skin's surface and restores suppleness.

Glycerin

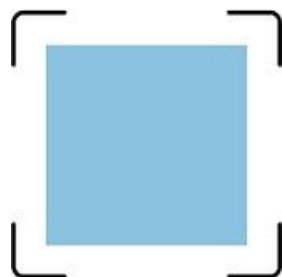

Hygroscopic substance which provides a hydrating and protective film.

Benefits

- Effective make-up removal
- Skin appears clean and purified
- Skin feels hydrated

How to use

Apply two pea-sized amounts to wet skin, massage and rinse with water.

R735

OXYBIOME CLEANSING MICELLAR WATER 400ml

Description

Oxybiome effectively removes make-up and purifies the skin. Supports the skin's natural microbiota. Anti-pollution effect.

For daily cleansing. All skin types, ideal for imperfections and redness.

Vegan

Fragrance free

Silicone free

Ingredients

Microbiota regulator

A blend of natural components that provides a variety of nutrients to reduce skin redness, imperfections and inflammation by supporting skin microbiota.

Zinc gluconate

Sebo-regulating and smoothing agent that minimizes the appearance of enlarged pores and accelerates wound healing. Recognized for its antiseptic properties, zinc is useful for acne-prone skin.

Niacinamide

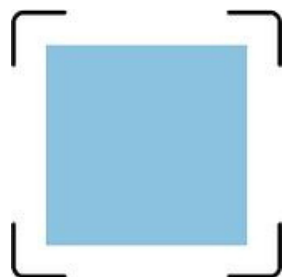

Soothing and anti-seborrheic active, known as vitamin B3 or vitamin PP, that helps to reduce the appearance of acne-prone skin, sebum production and redness.

Benefits

- Skin is clean and soothed
- Skin is purified
- Skin microbiota is supported for healthy skin

How to use

Apply to the face and eyes with a cotton pad in the morning and evening on dry skin. Do not rinse.

FOAMER 5

EXFOLIATING FOAM

100ml

Description

Foamer 5 effectively purifies the skin. The glycolic acid exfoliates the skin and removes dead cells and impurities, while enoxolone soothes the skin.

For dull complexion, irregular texture and imperfections. All skin types.

Vegan

Fragrance free

Silicone free

Ingredients

5% Glycolic acid

AHA (Alpha Hydroxy Acid) derived from fruit acids and known for its keratolytic action. It easily penetrates the skin to stimulate cell renewal by destroying the links that bind dead cells together.

Enoxolone

Powerful anti-inflammatory agent extracted from licorice root. Also called beta glycyrrhetic acid, it is renowned for its soothing and calming properties.

Benefits

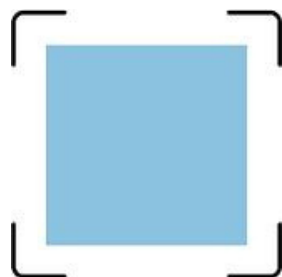

- Skin is left clean and smooth
- Natural skin glow appears restored
- Pores are visibly tightened

How to use

Once a day, apply a small amount to a clean and dry face. Massage and rinse with water after two minutes or as soon as you start to feel a tingling sensation. Avoid the eye contour area.

R845

FOAMER 15

INTENSE EXFOLIATING FOAM

100ml

Description

Foamer 15 effectively purifies the skin. The glycolic acid exfoliates the skin and removes dead cells and impurities, while enoxolone soothes the skin.

For dull complexion, irregular texture and imperfections. All skin types, Foamer 15 is ideal for normal to oily skin.

Vegan

Fragrance free

Silicone free

Ingredients

15% Glycolic acid

AHA (Alpha Hydroxy Acid) derived from fruit acids and known for its keratolytic action. It easily penetrates the skin to stimulate cell renewal by destroying the links that bind dead cells together.

Enoxolone

Powerful anti-inflammatory agent extracted from licorice root. Also called beta glycyrrhetic acid, it is renowned for its soothing and calming properties.

Benefits

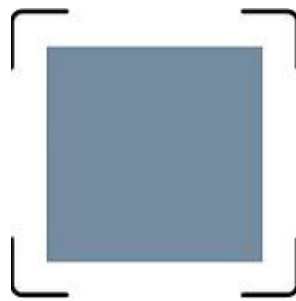

- Skin is left clean and smooth
- Natural skin glow appears restored
- Pores are visibly tightened

How to use

Once a day, apply a small amount to a clean and dry face. Massage and rinse with water after two minutes or as soon as you start to feel a tingling sensation. Avoid the eye contour area.

R845

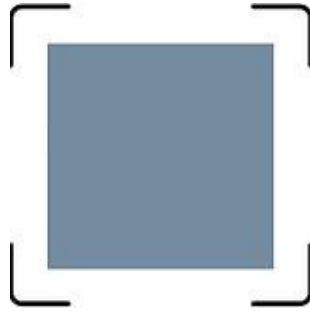

Powerful acids that work overnight to boost the skin's natural regeneration power, harmonize complexion and improve the appearance of skin imperfections.

Whilst you are sleeping, your skin regenerates itself and this is the optimal time to benefit from powerful actives such as glycolic and salicylic acids which target skin imperfections and promote skin cell renewal. Dermaceutic's Stimulate range helps to harmonize complexion and improve the appearance of skin imperfections overnight. Glycolic acid and salicylic acid are among the best known chemical agents to have many benefits. While exfoliating the skin, they have properties which stimulate the skin's natural functional and structural constituents. Once deposited on the skin, they act as biological stimulators to enhance the renewal of newer keratinocytes and cellular matrix. After stimulation, the regeneration of the skin is mediated by the multiplication of the epidermal cells which are newer and healthier. Thus older cells are replaced by new ones. The main ingredients found in the Dermaceutic "STIMULATE" range are Glycolic acid, a AHA known for its keratolytic action that stimulates cell renewal and Salicylic acid, a BHA with a lipophilic nature that helps to unclog pores.

STIMULATE

ACTIBIOME

ACNE-PRONE SKIN NIGHT CREAM

40ml

Description

Actibiome exfoliates and unclogs pores thanks to the keratolytic action of salicylic and glycolic acids. Supports the skin's natural microbiota in its fight against harmful bacteria to reduce excess sebum.

For skin imperfections and redness. All skin types, ideal for oily to combination and acne-prone skin.

Vegan

Ingredients

10% Glycolic acid solution

AHA (Alpha Hydroxy Acid) derived from fruit acids and known for its keratolytic action. It easily penetrates the skin to stimulate cell renewal by destroying the links that bind dead cells together.

1% Microbiota regulator

A blend of natural components that provide a variety of nutrients to reduce skin redness, imperfections and inflammation by supporting skin microbiota.

1% Salicylic acid

BHA (Beta Hydroxy Acid) causing a keratolytic action that reduces intercorneocyte cohesion and destroying lipids that bind the outer cells of the epidermis. Its lipophilic nature helps unclog pores.

2% Purifying active

Biomimetic agent inspired by the natural defense mechanism of a marine algae to fight against pathogen attacks. It acts by decreasing lipid production and inhibiting bacteria growth while improving the recruitment of keratinocytes and decreasing inflammatory mediators for treating, repairing and soothing actions.

Benefits

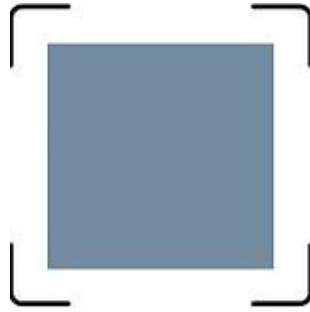

- Skin imperfections and redness are visibly reduced
- Pores are tightened and skin is smoothed
- Skin microbiota is supported for clear and healthy skin

How to use

Apply to face and neck area in the evening. Avoid the eye contour area.

R1,030

LIGHT CEUTIC UNIFYING NIGHT CREAM 40ml

Description

Light Ceutic gently exfoliates the skin and reduces the appearance of pigment spots, thanks to the combined action of glycolic acid, phytic acid and vitamin C. This exfoliation process allows the skin to naturally regenerate overnight.

For irregular and dull complexion. All skin types.

Ingredients

5.6% Glycolic acid

AHA (Alpha Hydroxy Acid) derived from fruit acids and known for its keratolytic action. It easily penetrates the skin to stimulate cell renewal by destroying the links that bind dead cells together.

2% Phytic acid

Lightening and antioxidant agent that has a synergic action to brighten the complexion when used with glycolic acid.

3% Vitamin C complex

Potent antioxidant, obtained by vectorizing L-Ascorbic acid using silanol technology, providing protection against the free radicals responsible for photoaging.

Benefits

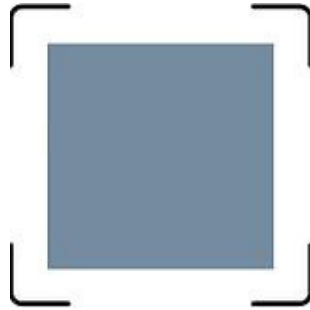

- Natural skin radiance appears restored
- Overall complexion is visibly harmonized

How to use

Apply to face and neck area in the evening. Avoid the eye contour area.

R1,008

TURN OVER REJUVENATING NIGHT CREAM 40ml

R1,008

Description

Turn Over reduces the signs of skin aging by removing dead cells. Its highly concentrated glycolic acid solution supports the skin's natural turnover to reduce the appearance of loss of skin tone, wrinkles and fine lines.

For loss of skin tone, wrinkles and fine lines. All skin types.

Fragrance free

Ingredients

15% Glycolic acid solution

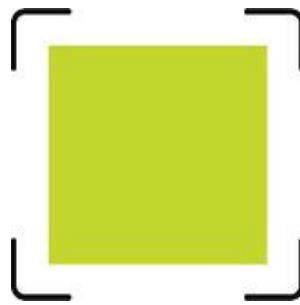

AHA (Alpha Hydroxy Acid) derived from fruit acids and known for its keratolytic action. It easily penetrates the skin to stimulate cell renewal by destroying the links that bind dead cells together.

Benefits

- Skin is smoother
- Skin appears rejuvenated

How to use

Apply to face and neck area in the evening. Avoid the eye contour area.

Intense repairing creams to nourish, soothe and restore for optimal comfort.

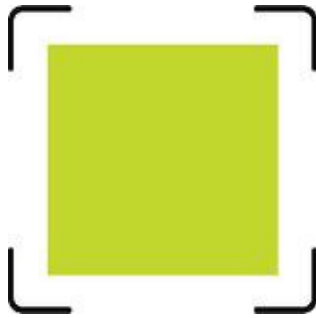

Providing your skin with hydration helps to address several skin concerns such as skin aging, dryness and redness.

Dermaceutic's "RESTORE" range contains repairing creams formulated to nourish, soothe and restore your skin for optimal comfort. Your skin is continuously exposed to internal and external factors that may threaten its homeostasis. Dehydrated, dry or irritated skin is a symptom of skin barrier dysfunction. To remediate these unpleasant sensations, powerful nutrients like peptides or a lipid complex are important for restoring your skin barrier. They help in reducing inflammation and irritation, they enhance the skin's repairing action and prevent dryness.

The key ingredients found in the Dermaceutic "RESTORE" range are Hyaluronic acid solution, that protects against transepidermal water loss; Aloe vera extract solution, that soothes the skin and reduces inflammation; and Shea butter which is highly concentrated in fatty acids and vitamins.

RESTORE

HYAL CEUTIC INTENSE HYDRATING CREAM 40ml

Description

Hyal Ceutic intensively hydrates and protects the skin all day long thanks to an optimal concentration of high and low weight hyaluronic acids. A combination of powerful ingredients including aloe vera enhances its soothing and repairing action. Prevents signs of skin aging. Anti-pollution action.

For dehydrated skin and the first signs of skin aging. All skin types, ideal for oily to combination skin.

Vegan, Fragrance free, Silicone free, Hypoallergenic.

Ingredients

5.5% Hyaluronic acid solution

Combination of high and low molecular weights that penetrates the skin at different levels. It reduces the skin's transepidermal water loss for optimal hydration, helps to stimulate the skin's defense and promotes skin healing.

10% Aloe vera extract solution

Moisturizing and wound healing active that soothes the skin and reduces inflammation.

Jojoba oil

Softening agent that creates a non-oily moisturizing layer on the surface of the skin with semi-occlusive properties to reduce transepidermal water loss.

Vitamin E ester

Ester form of vitamin E renowned for its antioxidant properties that helps to combat the free radicals responsible for photoaging (damage caused by the sun).

Shea butter

Hydrating and nourishing agent highly concentrated in fatty acids and vitamins.

Benefits

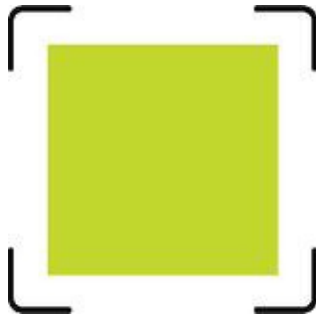

- Skin is replenished
- Natural moisture level of the skin appears restored

How to use

Apply to the face in the morning and evening. Can be applied to the eye contour area.

R1,030

REGEN CEUTIC NOURISHING HYDRATING CREAM 40ml

Description

Regen Ceutic nourishes and firms the skin thanks to its peptides complex. The addition of hyaluronic acid and powerful antioxidants boosts the skin's natural power to protect and repair itself. Prevents signs of skin aging.

For aged and dry skin. All skin types.

Vegan, Fragrance free, Silicone free

Ingredients

3% Peptides complex

Combination of two amino acids linked to a fatty acid that improves skin penetration, which helps stimulate skin repair and collagen synthesis for younger looking skin.

3% Hyaluronic acid solution

Moisturizing agent that maintains skin hydration thanks to its hygroscopic properties and protects against transepidermal water loss for optimal hydration.

Vitamin C ester & Vitamin E

Synergy of two vitamins that provides ultimate protection against photoaging.

Shea butter

Hydrating and nourishing agent highly concentrated in fatty acids and vitamins.

Benefits

- Skin is intensively restored
- Superior skin comfort
- Appearance of wrinkles is visibly diminished

How to use

Apply to the face in the morning and evening. Can be applied to the eye contour area.

R1,030

K CEUTIC POST-TREATMENT CREAM 30ml

Description
SPF 50 - UVA/UVB

K Ceutic restores and protects the skin by delivering essential nutrients and a very high SPF 50. Its advanced formula contains a combination of ingredients designed to repair, nourish, protect and soothe the skin.

For fragile skin, redness and post-aesthetic treatment. All skin types.

Fragrance free, Hypoallergenic

Ingredients

K Complex

Combination of anti-inflammatory agents that soothe the skin.

Glycoprotein

Restructuring and regenerative active that stimulates collagen and elastin production.

Vitamins C & E

Sodium salt form of vitamin C combined with the vitamin E ester form, providing the ultimate protection against photoaging.

UV filters

Combination of mineral and organic filters that offers broad spectrum protection against UVB and UVA rays.

Benefits

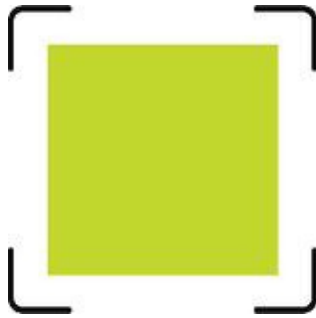

- Skin is intensively nourished and protected from UV ray damages
- Appearance due to photoaging is improved
- Redness and irritations appear soothed for optimal recovery time after aesthetic treatments

How to use

Apply to the face in the morning and as often as required throughout the day. Avoid the eye contour area.

R945

PANTHENOL CEUTIC NOURISHING RESTORING OINTMENT 30g

Description

Panthenol Ceutic restores and highly nourishes the skin thanks to ingredients such as panthenol, shea butter and beeswax. Its combination of powerful hydrating and repairing actives helps to soothe the skin.

For post-aesthetic procedures. All skin types, ideal for sensitive and/or very dry skin.

Fragrance free

Silicone free

Ingredients

5% Panthenol

Moisturizing agent to provide an immediate calming effect on irritated skin.

1% Bisabolol

Highly tolerated soothing active with anti-inflammatory and skin healing properties.

Shea butter & Beeswax

Hydrating actives that prevent dryness and nourish the skin thanks to its film-forming properties to protect it from environmental aggressions.

Vitamin E ester

Ester form of vitamin E renowned for its antioxidant properties that helps to combat the free radicals responsible for photoaging (damage induced by sun).

Benefits

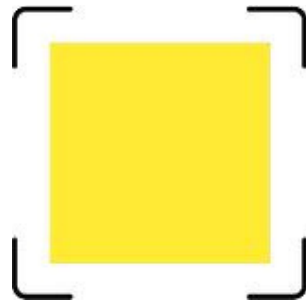

- Skin is soothed
- Skin is highly nourished
- Suppleness and comfort are restored

How to use

Apply to the skin when needed.

R610

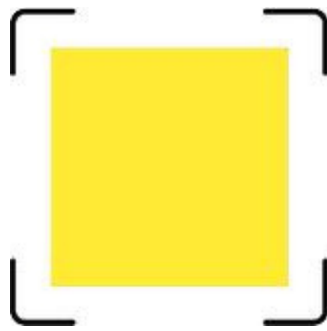

SPF 50+ to provide very high sun protection with age defense properties.

Effectively protecting your skin throughout the day from UV rays is vital to preventing signs of ageing and maintaining healthy skin. Dermaceutic's "PROTECT" range offers very high sun protection reinforced with age defence properties. Solar radiation is the main cause of visible signs of skin ageing. When UV rays reach the dermis of unprotected skin areas, they trigger the degradation of dermal collagen fibres and elastic fibres as well as other basal components of the skin. UV rays activate enzymes which are responsible of this degradation. The key ingredients found in the Dermaceutic "PROTECT" range are the mineral and organic filters which have the capacity to scatter and absorb UV radiation to protect your skin from their harmful effects. UV filters offer broad spectrum protection against UVB and UVA rays. Hyaluronic acid helps to stimulate skin defence and Stem cell stimulator improves skin healing and decreases inflammatory reaction.

PROTECT

SUN CEUTIC 50+ AGE DEFENSE SUN PROTECTION 50ml

Description
SPF 50+ - UVA/UVB

Sun Ceutic 50+ protects the skin thanks to powerful UVA/UVB filters and certifies a SPF 50+. Its unique stem cell stimulator, associated with hyaluronic acid, helps to prevent signs of photoaging.

Ideal for dry to normal skin.

Also available in universal shade.

Vegan, Fragrance free

Ingredients

UV filters

Combination of mineral and organic filters that offer broad spectrum protection against UVB and UVA rays.

Hyaluronic acid

Moisturizing agent that maintains skin hydration thanks to its hygroscopic properties, helps to stimulate skin defense and promotes skin healing.

Aloe vera

Moisturizing and wound healing active that soothes the skin and reduces inflammation.

Stem cell stimulator

Marine algae derivative that accelerates epidermal restoration, improves skin healing and decreases inflammatory reaction to smooth out the appearance of wrinkles.

Benefits

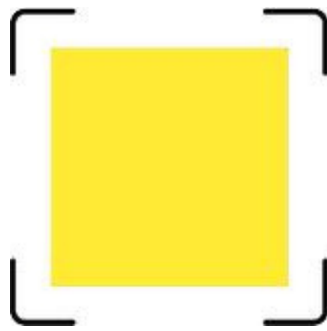

- Skin is effectively protected from harmful UVA/UVB rays
- Skin is protected against signs of photoaging: dark spots, fine lines and dehydration

How to use

Apply to the skin when needed.

R785

SUN CEUTIC 50+ TINTED AGE DEFENSE SUN PROTECTION 50ml

Description
SPF 50+ - UVA/UVB

Sun Ceutic 50+ Tinted protects the skin thanks to powerful UVA/UVB filters and certifies a SPF 50+. Its unique stem cell stimulator, associated with hyaluronic acid, helps to prevent signs of photoaging.

Ideal for dry to normal skin.

Vegan, Fragrance free

Ingredients

UV filters

Combination of mineral and organic filters that offer broad spectrum protection against UVB and UVA rays.

Hyaluronic acid

Moisturizing agent that maintains skin hydration thanks to its hygroscopic properties, helps to stimulate skin defense and promotes skin healing.

Aloe vera

Moisturizing and wound healing active that soothes the skin and reduces inflammation.

Stem cell stimulator

Marine algae derivative that accelerates epidermal restoration, improves skin healing and decreases inflammatory reaction to smooth out the appearance of wrinkles.

Benefits

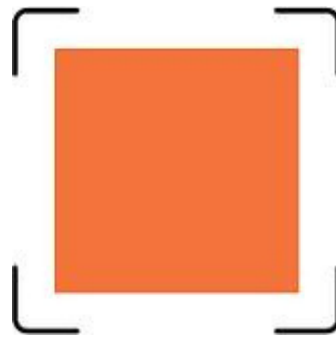

- Skin is effectively protected from harmful UVA/UVB rays
- Skin is protected against signs of photoaging: dark spots, fine lines and dehydration

How to use

Evenly apply to the face, neck and décolleté 10 minutes before sun exposure. Renew application frequently, especially after contact with water.

R785

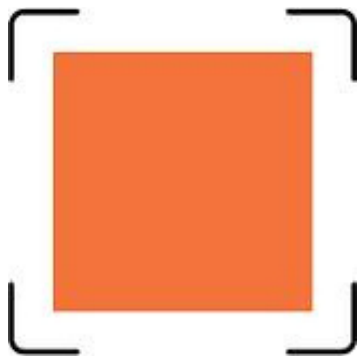

Innovative skincare to prevent the signs of aging, for younger-looking, healthier skin.

Signs of skin ageing are the most common skin complaint. Dermaceutic's Prevent range offers innovative solutions to combat these signs and achieve younger-looking, healthier skin. One of the main ways by which internal and external factors mediate and activate their harmful effects on the skin is by inducing the activation of the Reactive oxygen species (ROS). The synthesis of these small molecules can be caused by sun exposure, stress, pollution, lifestyle or diet. They attack the most vital components of your skin cells and induce damage. As a consequence, cells are weakened and inflammation signals are triggered. Wrinkles, fine lines and loss of elasticity and skin tone are the visible marks of this biological combat. We are exposed to these environmental stressors on a daily basis. Dermaceutic's skincare regimen will help to prevent the damages caused by these aggressors. The main ingredients found in the Dermaceutic "PREVENT" range are Vitamin E, which acts as an antioxidant to limit the accumulation of ROS and to minimize their harmful effects on your skin. A retinol complex boosts collagen production to combat signs of photoaging.

PREVENT

C25 CREAM

ANTIOXIDANT CONCENTRATE

30ml

Description

C25 Cream prevents the appearance of free radical damage and premature signs of skin aging thanks to its powerful antioxidant formula. A synergy of vitamins C, A, B5 and E neutralizes the effect of oxidative stress.

For dull and irregular complexion, fine lines and wrinkles. All skin types.

Vegan, Silicone free

Ingredients

25% Vitamin C complex

Potent antioxidant, obtained by vectorizing L-Ascorbic acid using silanol technology, providing protection against the free radicals responsible for photoaging.

Vitamin A ester

The most stable and tolerated form of vitamin A. It improves the texture of the skin and helps combat the signs of aging.

Vitamin B5

Moisturizing agent to provide an immediate soothing effect on irritated skin.

Vitamin E ester

Ester form of vitamin E renowned for its antioxidant properties that helps to combat the free radicals responsible for photoaging (damage caused by the sun).

Polyphenols

Found naturally in grapes, especially red grapes, polyphenols act as powerful antioxidant, preventing lipid peroxidation, and as an anti-inflammatory agent.

Benefits

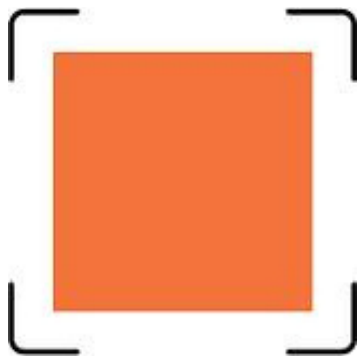

- Skin is revitalized and protected from oxidative stress
- Complexion appears radiant and harmonized
- Appearance of fine lines and wrinkles is reduced

How to use

Apply to the face in the morning, followed by high sun protection.

R1,060

TRI VITA C30

30% VITAMIN C SERUM

30ml

Description

Industry-leading concentrations of vitamin C for optimal dermo-revitalization, free radical protection and skin restoration. Prevents the appearance of fine lines and wrinkles, loss of elasticity and uneven skin tone.

An innovative combination of 3 forms of vitamin C to reach several depths of the skin and release antioxidant benefits over time.

Vegan, Fragrance free

Ingredients

15% L-Ascorbic acid

Provides optimal antioxidant action.

14.5% Ascorbyl silanol

Potent antioxidant, obtained by vectorizing L-Ascorbic acid using silanol technology, providing protection against the free radicals responsible for photoaging.

0.5% Ascorbyl ester

Combats the signs of photoaging, evens out complexion and boosts skin radiance.

Vitamin E ester

Ester form of vitamin E renowned for its antioxidant properties that helps to combat the free radicals responsible for photoaging (damage caused by the sun).

Ferulic acid ester

Renowned antioxidant that boosts and enhances the photoprotection action of the vitamins C & E.

Benefits

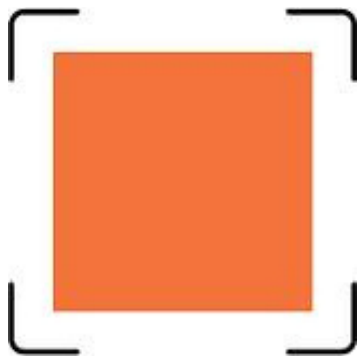

- Skin looks younger and healthier
- Skin appears more radiant

How to use

Apply to the face and neck in the evening. 3 month treatment recommended.

R2,060

TRI VITA C30

30% VITAMIN C SERUM

30ml

Description

Industry-leading concentrations of vitamin C for optimal dermo-revitalization, free radical protection and skin restoration. Prevents the appearance of fine lines and wrinkles, loss of elasticity and uneven skin tone.

An innovative combination of 3 forms of vitamin C to reach several depths of the skin and release antioxidant benefits over time.

Vegan, Fragrance free

Ingredients

15% L-Ascorbic acid

Provides optimal antioxidant action.

14.5% Ascorbyl silanol

Potent antioxidant, obtained by vectorizing L-Ascorbic acid using silanol technology, providing protection against the free radicals responsible for photoaging.

0.5% Ascorbyl ester

Combats the signs of photoaging, evens out complexion and boosts skin radiance.

Vitamin E ester

Ester form of vitamin E renowned for its antioxidant properties that helps to combat the free radicals responsible for photoaging (damage caused by the sun).

Ferulic acid ester

Renowned antioxidant that boosts and enhances the photoprotection action of the vitamins C & E.

Benefits

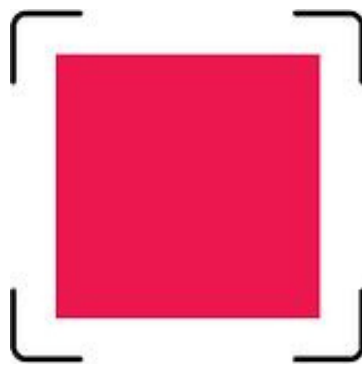

- Skin looks younger and healthier
- Skin appears more radiant

How to use

Apply to the face and neck in the evening. 3 month treatment recommended.

R2,060

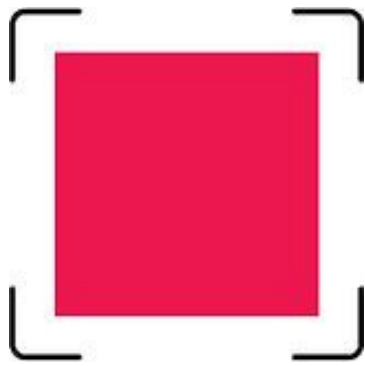

Expert care to target specific concerns and reduce visible skin imperfections.

Specific skin concerns such as dark spots and persistent rednesses, or various other marks can be hard to improve. Dermaceutic's Target range offers expert solutions to visibly reduce these skin issues. A highly advanced formulation is necessary to activate skin renewal and elasticity. A combination of intelligent ingredients creates synergy and enhances the progressive removal of dark spots. By combining the stimulation mechanisms of keratinocytes cells and the lightening mechanisms of melanocytes cells, the "Target" range delivers the most suitable skin regimen to eliminate these visible pigmentary defects, for long-lasting results. The main ingredients found in the Dermaceutic "TARGET" range are Kojic acid that blocks melanin synthesis, responsible for pigments spots; Niacinamide that inhibits the transfer of melanosomes and helps to decrease the appearance of skin redness; Licorice extract that regulates the dispersion of melanin to help homogenize complexion; and a Peptides complex to help stimulate skin repair and collagen synthesis.

TARGET

RADIANCE BRIGHTENING CREAM 30ml

Description

Radiance gently exfoliates the skin and restores the skin's radiance thanks to the synergy of high-performance acids and lightening agents in optimal concentrations.

For dull complexion, uneven skin texture and skin tone.

Vegan, Fragrance free

Ingredients

Kojic acid

Depigmenting agent that inactivates tyrosinase by chelation reaction, blocking melanin synthesis responsible for pigment spots.

Arbutin

One of the most potent actives that reduces tyrosinase activity and therefore the production of melanin.

Niacinamide

Lightening agent that inhibits the transfer of melanosomes. It is also known as vitamin B3 or vitamin PP and helps to decrease the appearance of skin redness.

Salicylic & Mandelic acids

BHA and AHA that reduce intercorneocyte cohesion by destroying lipids that bind the outer cells of the epidermis with their keratolytic properties.

Benefits

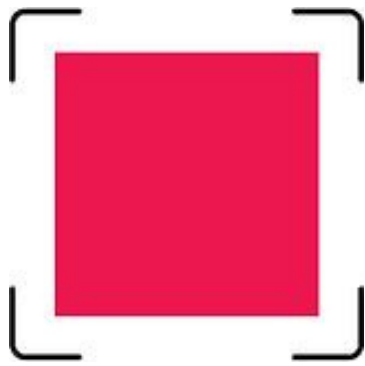

- Complexion is homogenized
- Pigment spots are visibly reduced
- Skin luminosity is restored

How to use

Apply in the evening on the full face, focusing especially on pigmented areas. Begin twice a week and increase frequency progressively. 3 month treatment recommended.

R1,030

YELLOW CREAM DARK SPOT CORRECTOR 15ml

Description

Yellow Cream targets and reduces the appearance of dark spots thanks to optimally concentrated lightening agents associated with the exfoliating action of glycolic and salicylic acids.

For dark spots, skin imperfections and irregular complexion.

Vegan, Fragrance free, Silicone free

Ingredients

Kojic acid

Depigmenting agent that inactivates tyrosinase by chelation reaction that blocks the melanin synthesis responsible for pigment spots.

Alpha-arbutin

One of the most potent actives that reduces tyrosinase activity and therefore the production of melanin.

Licorice extract

Lightening agent that regulates the dispersion of melanin (agent responsible for pigment spots) to help homogenize complexion.

Morus alba extract

Antioxidant agent rich in resveratrol and vitamin C, it limits the production of melanin by inhibiting tyrosinase to effectively reduce pigment spots.

Glycolic & salicylic acids

AHA and BHA that speed up exfoliation and destroy lipids that bind the outer cells of the epidermis, to help promote cell renewal and brighten the complexion.

Benefits

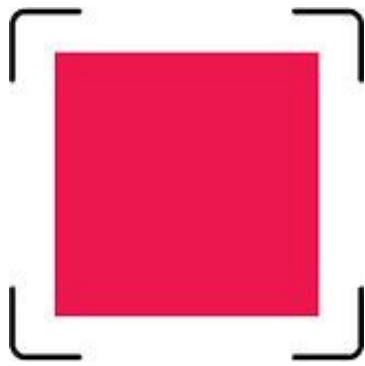

- Dark spots are visibly reduced
- Overall complexion is more even

How to use

Apply in the evening on dark spot areas. Avoid the eye contour area.

R960

DERMA LIFT 5.0 EYE LIFTING SERUM 30ml

Description

Derma Lift 5.0 is formulated for an immediate lifting effect combined with long-term peptide skin-boosting action. Its synergy of ingredients improves the appearance of free radical damage and the signs of skin aging.

For the appearance of sagging skin, expression lines and fine wrinkles. All skin types.

Fragrance free

Ingredients

5% Peptides complex

Combination of two amino acids linked to a fatty acid which improves skin penetration to help stimulate skin repairs and collagen synthesis for younger looking skin.

4% Tensing agent

Film former copolymer that provides an instant lifting effect.

0.5% Bakuchiol

Retinol-like agent derived from a vegetal source and known as an effective antioxidant. It stimulates the renewal of skin cells and collagen production.

1% Ceramides

Hydrating agent that reinforces the barrier function, provides a well-balanced moisture content and helps the skin to self-regenerate.

Panthenol, Allantoin & Mineral cocktail

Hydrating and nourishing actives that reinforce the skin barrier and intensely hydrate the skin.

Benefits

- Skin immediately appears lifted and replenished
- Skin looks younger and feels revitalized

How to use

Apply to the eye contour area in the morning and evening, before your daily care.

R1,275

SPECIFIC CARE

DUAL + ANTI-BLEMISH SERUM 30ml

Description

Dual + is formulated with a unique combination of two forms of azelaic acid and lightening actives to offer a double action against pigment spots and emerging breakouts. Comedolytic and non-comedogenic effect.

Prescribed to target the appearance of pigments spots and acne-prone skin induced imperfections.

Non-comedogenic, Fragrance free, Silicone free, Vegan

Ingredients

Azelaic acid

Versatile active recognized for helping to reduce melanin production, decrease bacteria growth in the follicle and normalize skin keratinization.

Effective on acne-prone skin and pigment spots.

Potassium azeloyl diglycinate

Azelaic acid derivative that helps to inhibit melanin synthesis, reduce sebum secretion and provide skin hydration.

Hexylresorcinol

Innovative skin lightening agent that reduces melanin synthesis by acting at different levels in the melanogenesis pathway.

Alpha-arbutin

One of the most potent actives that reduces tyrosinase activity and therefore the production of melanin.

Benefits

- Pigment spots and blemishes are visibly reduced
- Overall complexion is harmonized
- Skin texture is smoother

How to use

Apply in the evening to the full face focusing especially on the areas of concern. Increase frequency progressively, up to 2 times per day.

R1,600

MELA CREAM PIGMENTATION CREAM 30ml

R2,010

Description

Mela Cream minimizes the appearance of pigment spots, harmonizes complexion and promotes an even skin tone.

Vegan

Fragrance free

Silicone free

Ingredients

ANiacinamide

Lightening agent that inhibits the transfer of melanosomes. It is also known as vitamin B3 or vitamin PP and helps to decrease the appearance of skin redness.

Retinol

Anti-aging agent that boosts collagen production to combat signs of photoaging and improves the skin texture.

Salicylic & mandelic acids

BHA and AHA that reduce intercorneocyte cohesion by destroying lipids that bind the outer cells of the epidermis with their keratolytic properties.

Phytic acid

Lightening and antioxidant AHA that has a synergic action to brighten the complexion when used with glycolic acid.

Licorice extract

Lightening agent that regulates the dispersion of melanin (agent responsible for pigment spots) to help homogenize complexion.

Benefits

- Appearance of pigment spots is reduced
- Complexion is harmonized

How to use

Apply once a day on the full face, focusing especially on pigmented areas. If retinol has never been used before, begin 2 times a week, increasing frequency progressively. 3 month treatment recommended.
